

Region 2 Student Activities Conference – 2017

Physics Competition Rules

Objective

This competition will consist of a design challenge and a conceptual portion. The conceptual portion will be in the form of a written test given to each team. This competition will require a basic understanding of mechanics and experimental design. All materials will be provided and participants will not be allowed to use any supplies not provided. A detailed rule sheet will become available the day of the competition.

Contest Eligibility

Each team consists of no more than 4 members. Teams may choose to have at most, one graduate student on their team. All other team members must be undergraduate students.
